General Contractor:

Roy Anderson Corp.
Golfport, MS

Electrical Engineer:

M/E Engineering
Buffalo, NY

Cordeck System:

N-R-G-FLOR+®
In Floor Cellular Raceway System

Cordeck was thrilled to be part of the 113,000 sq. ft. expansion at the Southland Casino Hotel located in West Memphis, AR, which is only a short drive from downtown Memphis, TN.

Outside of the gaming complex there will be a new 1,250 space parking garage connected to a 300 room hotel, which will include 60 suites and 12 penthouse suites.

Cordeck's In Floor Raceway System merges with the structural floor which provides maximum security for Southland Casino Hotels' confidential data. Our innovative system also allows for quick and easy floor plan changes, which is vital in the gaming industry.

Our Innovative In Floor Cellular Raceway is an In-Slab Wire Management System That Delivers Power and Data Where You Need it
